Information to get from PIs

Step 1

1) IRB number for the project
2) PIs ACE ID
3) The ACE ID of all researchers involved in the project who will need access to the data
4) Project name

Step 2

1) Email itservices@unlv.edu and CC Bobby Roybal (bobby.roybal@unlv.edu) and Mina Rezaeian Jam (mina.rezaeianjam@unlv.edu) to grant access to the cluster to the PI and his/her team.
2) Include in the email the information you gathered in Step 1.

To rename a study already done

1) Right click on project
2) Click on “Correct”
3) In the last name category, make sure it’s aceID_projectName_patientID such as subject001 (sengua1_projecttest001_subject001)
4) Save changes

To push data from scanner to the cluster

1) Select the project
2) Click export
3) Browse for folder and select the “M” drive
4) Set image conversion to interoperability
5) Click on export
